TUESDAY, NOVEMBER 25, 1890.

Esther Revolutionary Of Silly. the serious responsibility of the (Note's previous inexcusable utterance, the fact remains that if that paper means what it says its coupsel is desarly revolutionary, and it is does not mean what it says, such talk is mischlevously silly. By tacking on at the end of its second editorial the suggestion of a Constitutional simpandamen; which would require the join; action of two-thirds of both branches of Congress and railleation by three-fourths of the States, he (Note in no degree relieved itself of the industry of worte, of demanding that a minority of the present House shall procred at the coming session to consider the Constitutions of session of the second session of the Fitty-First Congress of all the legislative functions with which, that branch pf the Government was daily invested as a result of the elections of 1888. We repart, that if the Nobe's oditorials as actually revolutionary as wat the advice given members of Congress to terminate the probable distribution to account of the mother protects of the second session of the second session of the second session of the present that if the Nobe's oditorials as actually revolutionary as wat the advice given members of Congress to a session of the probable distributions that it has in any manner allected with second to the minority is as actually revolutionary as wat the advice given members of Congress that will endowed the constitutional powers or controlled the Constitutional powers or controlled the Constitutional powers or controlled are the Constitutional powers or controlled. Olole's provious inexensable utterance, it at some length:

in the national legislature, is equally mino, that even the more that way it appears even more ridionyear is a pother causes will probably have

cent elections were concerned; and if the elequently pleads for project on thus:

see how little itself and its party recog- The truth will occasionally creep into bixed the policy it now advances. In that the news eclemes of the World to conyear the appeal was made direct y to the tradict his free trade editorial ravings. people by the platforms of the two parties, to sustain the Republican or Democratic pothe Navember election, but we heard no with ittraders to Congress should submit, but on [From the Boston Ghote, Nov. 21.] the contrary as late as January 22, 1889, Where the "Revolution" Compan the Democrate of the Senete cast a solid confect with the principle austraced by the people at the polls. And a month later with the principle austraced by the people at the polls. And a month later with the leaded editorial front heave of deut to-leaded editorial front heave of the leaded editorial front coupling to the people in the leaded editorial front coupling to the people in the leaded editorial front coupling to the people in the leaded editorial front coupling to the people in the extent of a column of the leaded editorial front coupling to the people in the extent of a column of the leaded editorial front coupling to the people in the extent of a column of the leaded editorial front coupling to the coupling the leaded editorial front headed editorial front coupling the leaded editorial front coupling the party sote on the tatiff bill directly in

The advice of the Clobe if successfully followed, would deplie the Government. The Foter bill, would be manch usuar "trevel and power to pay the interest on the public debt, so meet its duity obligations, to pay pensinor, to furnish food and subsistence to the Atmy and Nary—in fact it would parally as and destroy the Government, unless as Republican President should call an extraordicary session of Congress to save the quiton from the perils wentonly brought upon it by a pastina minority.

But we will inform the Clobe that whatever its purpose or that of the Bouthen obstructionists whom it is instingt a discovering to the section of the Phys. First Congress. The Republican anisority will be no more successful to the second than they were in the first seasion of the Phys. First Congress. The Republican anisority will couleme to control the action of that body until the Speaker's gard shall fall a high come as the fourth of hands. The meaning will not be permitted to defeat the defeat of the public loterest, and its appropriation bills, or any other legislation shall be accorded to the public loterest, and its manufactural assessments. ion drowed for the public laterest, and it will only be necessary that the Republicans of the Scante redeem their pleages to the people and to each other, to idente the placing upon the statute books of a law that shall amply guard; the Constitutional : HISING VIRTUE LODGE. right of every citizen of the United States to cast his lawful ballot in safety and to have the result honestly declared and en-

About Prices.

During the campaign the Demo-cratic free trade organs resorted to the most chameful deception to mislead N the people as to the effect of the new barifi law on prices. Stump speakers and stryster politicians school these false-popts on the platform and in the streets with utter disregard of facts. In their screenble for votes papers and speakers sacrificed besty and fairness, their one object being to gain temperary success for the Democracy, regardless of the drainion their reputations. The campaign is now over, and, of course, as the impossible to over, and, or course, as its impossibility to maintain the describin indeficiency, these organs are forced to facilitatily after take described practiced upon the people. The described forced and the people of the Maintain forced and the people of the

the logic of creats had commutated to the people he coverally of the deception practical materials and anticologic of the deception practical materials and the practical materials are the practical materials and the practical vancing pr ces.

We know that at least a tacit confession

of dishounty must come, but we sate not propared for the open confeccion which appeared in the New York Horid Nevembet 17, that its anto-plection angone ments of advancing prices were for the most part pridacts of the imagination. This paper; which above all others insist-Either Revolutionary Or Silly.
